To,
The Principal,
Thadomal Shahani Engineering College,
Bandra-West.

Subject-Application for TSEC Gold Medalist Award for the year 2018.

Respected Sir,

I, Maulik Joshi, studying in BE Information Technology department, wish to apply for Gold Medalist Award. In my four years of engineering, I have worked diligently not only to score marks but to learn and grow in all aspects. I have maintained my pointer to an average of 8.45.

I have been part of two major national level 24 hours Coding Competitions i.e. India Code For Good(CFG) Challenge 2017 , organized by JPMorgan Chase & Co. and Codeshastra 3.0 , organized by Computer Society of India(CSI) .I have developed applications that deal with realistic problems that helped NGO SaNiSa and farmers through this competitions. Along with this, I have developed three technical projects in college. I have successfully gone through and cracked one of the toughest and long-lasting technical interviews conducted by JPMorgan Chase & Co. Along with this; I have invested my time and enhanced my knowledge by attending seminars, training courses, coordinator at college event, etc.

I have a sound technical knowledge and along with it good management, leadership and communication skills that distinguished me among others and paved the way to secure Dream Job at JPMorgan Chase & Co. I believe that the skills, achievements and experiences I have gained throughout these four years make me an ideal candidate for this award and thus I wish to apply for the same.

Thanking you in anticipation,

Yours Sincerely,

Maulik Joshi
